

# Course Syllabus

## Programming Workshop 2 (CSCI 1061U)

Faisal Qureshi

<http://faculty.ontariotechu.ca/qureshi>

Computer Science, Faculty of Science  
Ontario Tech University

**Winter 2021**

## Instructor

Faisal Qureshi  
Email: [faisal.qureshi@uoit.net](mailto:faisal.qureshi@uoit.net)  
Office: UA4032  
Web: <http://faculty.uoit.ca/qureshi>

## Lectures

Monday, 9:40 pm - 12:30 pm, online (*First day of lectures, Monday, January 11, 2021.*)

Google Meet Link for each section will be posted in Canvas. You will need your Ontario Tech U .net email address to access this link.

## Online Etiquette

To get the most out of these online lectures, please follow the following rules

- If you have a camera, keep it turned on.
- Please mute your mic, when not asking a question.
- Be respectful, and avoid strong language, such as all caps, exclamation points.
- Be forgiving and generous. Online lectures are different from inclass lectures. Be kind to each other.
- Most importantly, have fun!

## Labs

In case the course has multiple lab sections. Each student will be assigned to one of these lab sections. All labs cover the same material. The space in lab sections is limited, and these slots are filled on a first-come bases.

*Please check [mycampus](#) for up to date information about course scheduling.*

## Office hours

Tuesday, 11 am - 12 pm, online, or by appointment.

Use this Google Meet link for office hours <https://meet.google.com/ssi-osuu-pwg>.

## Description

This is a second course on computer programming that continues from CSCI 1060U and covers more advanced theory and practice. The lectures introduce modern concepts in program design and construction for larger scale programs. The laboratories provide an opportunity to apply these concepts. Topics that are covered in this course include advanced program design, basic design patterns, templates and standard template libraries, data structures, debugging and version control.

## Learning outcomes

On the successful completion of the course, students will be able to:

- Explain C++ programming fundamentals, including statement and control flow
- Outline the essential elements of the C++ programming language.
- Explain the basic principles of object-oriented paradigm
- Apply concepts of encapsulation, polymorphism, and inheritance in C++ programming
- Construct programs using C++ standard template library
- Analyze, write, debug, and test basic C++ codes

## Grading

- Lab participation and completion 30%
- In-class quizzes/exercises 5%
- Midterm exam 1 20%
- Midterm exam 2 20%
- Final exam 25%

## Important dates

Study break during the week of Feb 15

Ontario Tech University's academic calendar that lists important dates (and deadlines) is available at [here](#).

## Course calendar

- Week 1
  - C++ introduction
  - Variables
  - Control flow
  - Functions
  - Console I/O
  - Bitwise operators
  - I/O redirection
  - `std::vector`
- Week 2
  - Output formatting
  - Commandline arguments
  - Random numbers
  - File I/O
  - Binary files
- Week 3
  - Multiple files
  - Makefile
- Week 4
  - Dynamic memory
  - `new`
  - `delete`
  - `delete []`
  - Structures
  - Function pointers
  - Callbacks
- Week 5
  - The `class` keyword
  - Access modifiers: `public`, `protected`, and `private`
  - Member variables and member functions
  - Constructor and destructor
  - Operator overloading: assignment operator
  - Initializer list
  - `this` pointer
  - Reference `&`
  - `const` functions
  - `const` references
  - `friends` functions
  - Extractor (`>>`) operator
  - Insertor (`<<`) operator

- Static methods and variables
  - **Midterm 1**
- Week 6
  - Inheritance
  - Polymorphism
  - Virtual functions
  - Abstract classes
- Week 7
  - Templates
  - Namespaces
  - Standard Template Library (STL) Introduction
- Week 8
  - STL containers
  - List
  - Deque
  - Queue
  - Priority Queue
  - Map
  - Sort
- Week 9
  - Revisiting function pointers
  - Functors
  - Lambda functions
- Week 10
  - Exception handling
  - PIMPL idiom
  - Swap idiom
  - **Midterm 2**
- Week 11
  - Version control using GIT
  - GNU Debugger (GDB)
  - Code profiling
- Week 12
  - Review

## Reading material

Course notes are available here <http://csundergrad.science.uoit.ca/courses/cpp-notes/>.

If you are in search of a good text book for this course. I recommend the following:

- *Absolute C++, 6th Edition* by Walter Savitch.

## Course policies

### Class Participation and Inclass Exercises

Student participation in lectures and laboratories is *mandatory*.

It is often difficult to assign a class participation mark. At the same time; however, I feel that it is important to reward students who make lectures lively and interesting for everyone. In order to assign class participation marks, I may provide in-class exercises and quizzes during during lectures. Theses exercises will require programming and will cover the topic currently under discussion. These exercises are due before the end of the lecture. When grading these exercises, I will focus more on the attempt rather than the correct solution. Paying attention during lectures and taking your own notes is one way to successfully complete these exercises.

## Final exam

Check the published Examination Schedule for a complete list of days and times.

## Course Work Submission

Unless otherwise instructed, all course work should be submitted using course Canvas.

## Partial marks

Assignments will primarily be evaluated based on the correctness of solutions; however, partial credit may be assigned for documentation, discussion, etc.

## Remarking

It is extremely important that all work is fairly graded. Please submit a remark request by email within 5 days of receiving the grade. The email must contain the reasons for which you think the work should be remarked. *Please note that a remark may result in a lower grade.*

## Late submissions

The penalty for a late submission is 10% per day. A lab, an assignment, or a project will get a **zero** if submitted more than 48 hours after the submission deadline.

## Email traffic

The instructor and the TA will make every effort to respond to emails in a timely manner; however, it may take up to two working days to respond to an email. It simply means that emails sent right before a deadline may not be answered in time. Urgent emails may be sent to “faisal.queshi@ontariotechu.net” with the subject line “csci 1061u - winter 2021”.

## Discussions

Appropriate use of discussion groups include clarification of lecture material and assignments and other concerns and comments about the course that might of general interest to course participants. Please do not post assignment solutions to the discussion groups.

## Collaboration

I encourage you to work together when discussing assignments/projects; however, it doesn't mean that you should share your written solutions or that you submit someone else's work as your own.

## Technology Requirements

To support online learning, the university recommends certain technology requirements for laptops, software and internet connectivity which are available at: <https://itsc.ontariotechu.ca/remote-learning.php>.

Students experiencing technical difficulties such that they are unable to meet the technology requirements may contact the IT Service Help Desk at: [servicedesk@dc-uoit.ca](mailto:servicedesk@dc-uoit.ca) Students experiencing financial difficulties such that they are unable to meet the technology requirements may contact Student Awards and Financial Aid Office at: [connect@ontariotechu.ca](mailto:connect@ontariotechu.ca)

By remaining enrolled in this course, you acknowledge that you have read, understand and agree to observe the Recommended Technology Requirements for accessing university online learning resources, including those minimum requirements that are specific to your faculty and program.

## Sensitive/Offensive Subject Matter

The classroom (both physical and virtual) is intended to provide a safe, open space for the critical and civil exchange of ideas and opinions. Some articles, media and other course materials may contain sensitive content that is offensive and/or disturbing. For example, some articles or videos may contain [Instructors should provide examples that are applicable to the course subject matter – e.g. graphical depictions of violence, profanity, human anatomy, sexual acts, matters pertaining to race, gender, or sexuality]. The Course Instructor will try to identify such material and communicate warnings to students in advance of the distribution and use of such materials, affording students the choice to either emotionally prepare for, or not to view or interact with, the content. [Instructors should publish a warning statement in advance so as to give students adequate opportunity to make a choice to avoid any such matter. The following is a sample disclaimer: “The content you are about to view contains sensitive subject matter that may be considered offensive and/or disturbing to some viewers. By viewing and/or interacting with the content you acknowledge and agree that it is your decision to view and interact with the content and to take the risk that you will experience a negative emotional response or reaction to the nature of the content.”]

## Student Support

Any student who faces challenges securing their food or housing and believes this may affect their performance in the course is urged to contact [studentlife@ontariotechu.ca](mailto:studentlife@ontariotechu.ca) for support. Furthermore, please notify your professor if you are comfortable in doing so. This will enable them to provide any resources and help that they can.

## Sexual Violence Support and Education

Ontario Tech is committed to the prevention of sexual violence in all its forms. For any student who has experienced Sexual Violence, Ontario Tech can help. We will make accommodations to cater to the diverse backgrounds, cultures, and identities of students when dealing with individual cases.

If you think you have been subjected to or witnessed sexual violence: - Reach out to a Support Worker, a specially trained individual authorized to receive confidential disclosures about incidents of sexual violence. Support Workers can offer help and resolution options which can include safety plans, accommodations, mental health support, and more. To make an appointment with a Support Worker, call 905.721.3392 or email [studentlife@ontariotechu.ca](mailto:studentlife@ontariotechu.ca) - Learn more about your options at: <https://studentlife.ontariotechu.ca/sexualviolence/>

## Students with Disabilities

Accommodating students with disabilities at Ontario Tech is a responsibility shared among various partners: the students themselves, SAS staff and faculty members. To ensure that disability-related concerns are properly addressed during this course, students with documented disabilities and who may require assistance to participate in this class are encouraged to speak with me as soon as possible. Students who suspect they have a disability that may affect their participation in this course are advised to go to Student Accessibility Services (SAS) as soon as possible. Maintaining communication and working collaboratively with SAS and faculty members will ensure you have the greatest chance of academic success.

When on campus access is allowed, students taking courses on north Oshawa campus can visit Student Accessibility Services in the Student Life Building, U5, East HUB (located in the Founders North parking lot). Students taking courses on the downtown Oshawa campus can visit Student Accessibility Services in the 61 Charles St. Building, 2nd Floor, Room DTA 225 in the Student Life Suite.

Disability-related and accommodation support is available for students with mental health, physical, mobility, sensory, medical, cognitive, or learning challenges. Office hours are 8:30am-4:30pm, Monday to Friday, closed Wednesday's 8:30am – 10:00am. For more information on services provided, you can visit the SAS website at <https://studentlife.ontariotechu.ca/services/accessibility/index.php>. Students may contact Student Accessibility Services by calling 905-721-3266, or email [studentaccessibility@ontariotechu.ca](mailto:studentaccessibility@ontariotechu.ca).

When on campus access is allowed, students who require the use of the Test Centre to write tests, midterms, or quizzes MUST register online using the SAS test/exam sign-up module, found [here](#)

<https://disabilityservices.ontariotechu.ca/uoitclockwork/custom/misc/home.aspx>. Students must sign up for tests, midterms, or quizzes AT LEAST seven (7) days before the date of the test.

Students must register for final exams by the registration deadline, which is typically two (2) weeks prior to the start of the final examination period. SAS will notify students of the registration deadline date.

## **Professional Conduct (if applicable)**

[Include faculty statement on professional conduct, if applicable.] Additional information on professional suitability can be found at [http://calendar.uoit.ca/content.php?catoid=22&navoid=879#Academic\\_conduct](http://calendar.uoit.ca/content.php?catoid=22&navoid=879#Academic_conduct)

## **Academic Integrity**

Students and faculty at Ontario Tech University share an important responsibility to maintain the integrity of the teaching and learning relationship. This relationship is characterized by honesty, fairness and mutual respect for the aim and principles of the pursuit of education. Academic misconduct impedes the activities of the university community and is punishable by appropriate disciplinary action.

Students are expected to be familiar with and abide by Ontario Tech University's regulations on Academic Conduct which sets out the kinds of actions that constitute academic misconduct, including plagiarism, copying or allowing one's own work to be copied, use of unauthorized aids in examinations and tests, submitting work prepared in collaboration with another student when such collaboration has not been authorized, among other academic offences. The regulations also describe the procedures for dealing with allegations, and the sanctions for any finding of academic misconduct, which can range from a resubmission of work to a failing grade to permanent expulsion from the university. A lack of familiarity with these regulations on academic conduct does not constitute a defense against its application. This information can be found at [http://calendar.uoit.ca/content.php?catoid=22&navoid=879#Academic\\_conduct](http://calendar.uoit.ca/content.php?catoid=22&navoid=879#Academic_conduct)

Extra support services are available to all Ontario Tech University students in academic development, study skills, counseling, and peer mentorship. More information on student support services can be found at <https://studentlife.ontariotechu.ca/services/academic-support/index.php>

## **Turnitin (if applicable)**

Ontario Tech University and faculty members reserve the right to use electronic means to detect and help prevent plagiarism. Students agree that by taking this course all assignments are subject to submission for textual similarity review by Turnitin.com. Assignments submitted to Turnitin.com will be included as source documents in Turnitin.com's restricted access database solely for the purpose of detecting plagiarism in such documents. The instructor may require students to submit their assignments electronically to Turnitin.com or the instructor may submit questionable text on behalf of a student. The terms that apply to Ontario Tech University's use of the Turnitin.com service are described on the Turnitin.com website.

Students who do not wish to have their work submitted to Turnitin.com must provide with their assignment at the time of submission to the instructor a signed Turnitin.com Assignment Cover sheet: <https://shared.uoit.ca/shared/departement/academic-integrity/Forms/assignment-cover-sheet.pdf>

## **Online Test and Exam Proctoring (Virtual Proctoring)**

Ontario Tech University will conduct virtual monitoring of examinations in accordance with Ontario privacy legislation and all approved policy instruments.

## **Final Examinations (if applicable)**

Final examinations are held during the final examination period at the end of the semester and when on campus access is allowed, may take place in a different room and on a different day from the regularly scheduled class. Check the published Examination Schedule for a complete list of days and times.

Students are required to show their Student ID card (campus ID) when in-person examinations are allowed. Students are advised to obtain their Student ID Card well in advance of the examination period as they will not be able to write their examinations without it. More information on ID cards can be found at <https://registrar.ontariotechu.ca/campus-id/index.php>.

Students who are unable to write a final examination when scheduled due to religious publications may make arrangements to write a deferred examination. These students are required to submit a Request for Accommodation for Religious Obligations to the Faculty concerned as soon as possible and no later than three weeks prior to the first day of the final examination period.

Further information on final examinations can be found at <https://usgc.ontariotechu.ca/policy/policy-library/policies/academic/procedures-for-final-examination-administration.php>

## Freedom of Information and Protection of Privacy Act

The following is an important notice regarding the process for submitting course assignments, quizzes, and other evaluative material in your courses in the Faculty of Science.

Ontario Tech University is governed by the Freedom of Information and Protection of Privacy Act (“FIPPA”). In addition to providing a mechanism for requesting records held by the university, this legislation also requires that the University not disclose the personal information of its students without their consent.

FIPPA’s definition of “personal information” includes, among other things, documents that contain both your name and your Banner (student) ID. For example, this could include graded test papers or assignments. To ensure that your rights to privacy are protected, the Faculty of Science encourages you to use only your Banner ID on assignments or test papers being submitted for grading. This policy is intended to prevent the inadvertent disclosure of your information where graded papers are returned to groups of students at the same time. If you still wish to write both your name and your Banner ID on your tests and assignments, please be advised that Ontario Tech University will interpret this as an implied consent to the disclosure of your personal information in the normal course of returning graded materials to students.

If you have any questions or concerns relating to the new policy or the issue of implied consent addressed above, please contact [accessandprivacy@ontariotechu.ca](mailto:accessandprivacy@ontariotechu.ca)

Notice of Collection and Use of Personal Information Throughout this course, personal information may be collected through the use of certain technologies under the authority of the University of Ontario Institute of Technology Act, SO 2002, c. 8, Sch. O. and will be collected, protected, used, disclosed and retained in compliance with Ontario’s Freedom of Information and Protection of Privacy Act R.S.O. 1990, c. F.31.

This course will use the following technologies that may collect, use, disclose and retain personal information (including images) for the purposes described below: [Instructors should edit this section according to the systems and technologies to be used in this specific course (e.g. If using Proctortrack, remove any reference to Respondus)] - Respondus Monitor and Proctortrack to maintain academic integrity for examinations; - Google Meet and Kaltura Virtual Classroom to facilitate remote instruction and interactive learning; - Peer-shared applications, services or technologies that may be reviewed, assessed, or used as part of coursework. - Other applications, services, or technologies that support or enhance online learning that include, but are not limited to, the following: [Instructor to list all relevant components]. For more information relating to these technologies, we encourage you to visit: <https://tlc.ontariotechu.ca/learning-technology/index.php> Questions regarding personal information may be directed to: Ontario Tech University Access and Privacy Office, 2000 Simcoe Street North, Oshawa, ON L1G 0C5, email: [accessandprivacy@ontariotechu.ca](mailto:accessandprivacy@ontariotechu.ca).

By remaining enrolled in this course, you acknowledge that you have read, understand, and agree to the terms and conditions under which the technology provider(s) may collect, use, disclose and retain your personal information. You agree to the university using the technologies and using your personal information for the purposes described in this course outline.

## **Freedom of Expression**

Pursuant to Ontario Tech's Freedom of Expression Policy all students are encouraged to express ideas and perspectives freely and respectfully in university space and in the online university environment, subject to certain limitations. Students are reminded that the limits on Freedom of Expression include speech or behaviour that: is illegal or interferes with the university's legal obligations; defames an individual or group; constitutes a threat, harassment or discrimination; is a breach of fiduciary, contractual, privacy or confidentiality obligations or commitments; and unduly disrupts and interferes with the functioning of the university. In the context of working online, different forms of communication are used. Where permitted, students using "chat" functions or other online forms of communication are encouraged to ensure that their communication complies with the Freedom of Expression Policy.

## **Student Course Feedback Surveys**

Student evaluation of teaching is a highly valued and helpful mechanism for monitoring the quality of Ontario Tech University's programs and instructional effectiveness. To that end, course evaluations are administered by an external company in an online, anonymous process during the last few weeks of classes. Students are encouraged to participate actively in this process and will be notified of the dates. Notifications about course evaluations will be sent via e-mail, and posted on Canvas, Weekly News, and signage around the campus.

## **University Response to COVID-19**

The government response to the COVID-19 pandemic is continually evolving. As new information becomes available from federal and provincial public health authorities, the Province of Ontario and the Regional Municipality of Durham, Ontario Tech University will remain nimble and prepared to respond to government orders, directives, guidelines and changes in legislation to ensure the health and safety of all members of its campus community. In accordance with public health recommendations, the university may need to adjust the delivery of course instruction and the availability and delivery mode of campus services and co-curricular opportunities. Ontario Tech University appreciates the understanding and flexibility of our students, faculty and staff as we continue to navigate the pandemic and work together to demonstrate our strong commitment to academic, research and service excellence during these challenging and unprecedented times.
